

USCG CHILD DEVELOPMENT CENTER  
5205 ENT STREET  
BASE CAPE COD, MA. 02542

From time to time a photo opportunity comes along that includes your child.  
For example: Your child and another child build a castle together and the teacher takes a picture to add to both children's portfolios.

The CDC may have a special visitor or program in which pictures are captured. The pictures which may include your child/children are displayed on a bulletin board in the foyer or outside the classroom.

The pictures taken by the CDC staff will never be posted on any form of media or website. (Face book etc.)

The following release will become part of the registration paperwork and will be renewed annually.

Check one box below.

I give permission for my child/children to be photographed at the CDC.

I **do not** give permission for my child/children to be photographed at the CDC.
